

I. Apartment Introduction

The International Student Apartments of Tsinghua University were established in 2004 and are located in the northeast corner of the campus, near the northeast gate of the university (Zijing Gate). On-campus apartments consist of Zijing Student Apartment Buildings No.19-23 and Student Apartment Building No.6 (Asian Youth Center). The room types are double rooms and triple rooms, accommodating more than 3000 international students. In recent years, international student apartments have been committed to building an "international, tasteful, and multi-functional" student living and learning community.

The main working responsibilities of the apartments include: accommodation consultation, check-in, check-out and accommodation registration for international students living in the campus; daily safety and sanitation management; cultural activities organization; working with students to build a safe and warm student community.

(Zijing Student Apartment Buildings No. 19-23)

Accommodation services

● Service Desk

There is a 24-hour service desk in each building of the International Student Apartments. It is located on the ground floor of each building, and is mainly responsible for the building services, such as visitor registration, distribution of postal

letter notices and other services.

There is a general service desk on the first floor of Zijing Student Apartment Building No.23, which is mainly responsible for check-in, check-out, room change, accommodation registration and so on.

● Public services

Water and electricity in the room: International students do not need to pay water or electricity bills. Prohibited electrical appliances are not allowed in student apartments (For specific types, please refer to the *Administrative Measures for Accommodation in Student Apartments at Tsinghua University*). Hot water for shower is available from 6:00-24:00. (The hot water maintenance time of each building shall be subject to the notice in the building)

Air conditioning and heating: The university will turn on the air conditioning or heating according to the university schedule.

Room cleaning: The cleaning staff clean the students' rooms regularly (except for Student Apartment Building No.6), but the household garbage should be sorted and thrown away by students themselves.

Network: The network of the apartment is the campus network of Tsinghua University, and the rooms are equipped with network interface and wireless network (Network account should be handled by students themselves).

Laundry washing and drying: There are public washing machines and dryers in the apartment. Students need to bring their own laundry detergent and clothing baskets, etc. They can use the machines by scanning the code on WeChat and paying by themselves.

Living Service: The public living space is equipped with fridge, microwave, etc.
